AUTHOR INDEX

Abekasis, S., see Agam, G. (904) 207
Aeckerle, S., see Böhme, R. (904) 125
Agam, G., Hatzav, P., Abekasis, S., Loven, A. and Livne, A.
Elevated intracellular Ca^{2+} affects Li_i-Na_o countertransport in human red blood cells (904) 207
Alcalde, A.I., see Brot-Laroche, E. (904) 71
Alonso, A., see Urbaneja, M.A. (904) 337
Alvarado, F., see Brot-Laroche, E. (904) 71
Arvidson, G., see Brentel, I. (904) 401

Baker, R.F., see Farooqui, S.M. (904) 239
Barenholz, Y., see Ben Yashar, V. (904) 117
Ben Yashar, V., Menashe, M., Biltonen, R.L., Johnson, M.L. and Barenholz, Y.
Interaction of *trans*-parinaric acid with phosphatidylcholine bilayers: comparison with the effect of other fluorophores (904) 117
Biltonen, R.L., see Ben Yashar, V. (904) 117
Bitbol, M., Fellmann, P., Zachowski, A. and Devaux, P.F.
Ion regulation of phosphatidylserine and phosphatidylethanolamine outside–inside translocation in human erythrocytes (904) 268
Bobrowska, M., see Sikorski, A.F. (904) 55
Böhme, R., Bumann, J., Aeckerle, S. and Malchow, D.
A high-affinity plasma membrane Ca^{2+}-ATPase in *Dictyostelium discoideum*: its relation to cAMP-induced Ca^{2+} fluxes (904) 125
Boivin, P., see Dhermy, D. (904) 201
Borghetti, A.F., see Gandolfi, S.A. (904) 29
Brentel, I., Arvidson, G. and Lindblom, G.
Phase equilibria of the ternary system 1-palmitoyl-*sn*-glycero-3-phosphocholine/oleic acid/water studied by NMR (904) 401
Brodbeck, U., see Bütikofer, P. (904) 259
Brody, S., see Coté, G.G. (904) 131
Brot-Laroche, E., Supplisson, S., Delhomme, B., Alcalde, A.I. and Alvarado, F.
Characterization of the D-glucose/Na^+ cotransport system in the intestinal brush-border membrane by using the specific substrate, methyl α-D-glucopyranoside (904) 71
Bumann, J., see Böhme, R. (904) 125
Bütikofer, P., Brodbeck, U. and Ott, P.
Modulation of red cell vesiculation by protease inhibitors (904) 259

Choy, M.Y.M., see Kwong, F.Y.P. (904) 105
Coll, R.J. and Murphy, A.J.
Inhibition of the sarcoplasmic reticulum Ca^{2+}-ATPase by Reactive Red 120 (904) 227
Cook, H.W., see Glanville, N.T. (904) 392
Cornelius, F. and Skou, J.C.
The sided action of Na^+ and of K^+ on reconstituted shark ($Na^+ + K^+$)-ATPase engaged in Na^+–Na^+ exchange accompanied by ATP hydrolysis. I. The ATP activation curve (904) 353
Costa, B., see Rivas, E. (904) 290
Coté, G.G. and Brody, S.
Circadian rhythms in *Neurospora crassa:* a clock mutant, *prd-1,* is altered in membrane fatty acid composition (904) 131
Cox, G.F., see Hatton, J.D. (904) 373

Davis, J.H., see Morrow, M.R. (904) 61
Delhomme, B., see Brot-Laroche, E. (904) 71
Devaux, P.F., see Bitbol, M. (904) 268
Dhermy, D., Simeon, J., Wautier, M.-P., Boivin, P. and Wautier, J.-L.
Role of membrane sialic acid content in the adhesiveness of aged erythrocytes to human cultured endothelial cells (904) 201

East, J.M., see Gould, G.W. (904) 36
East, J.M., see Gould, G.W. (904) 45
Ebert, B., see Páli, T. (904) 346
Ellisman, M.H., see Hatton, J.D. (904) 373
Ellory, J.C., see Stein, J.M. (904) 330

Farooqui, S.M., Wali, R.K., Baker, R.F. and Kalra, V.K.
Effect of cell shape, membrane deformability and phospholipid organization on phosphate-calcium-induced fusion of erythrocytes (904) 239
Fellmann, P., see Bitbol, M. (904) 268
Fujiwara, A., see Kudo, Y. (904) 309

Gandolfi, S.A., Maier, J.A.M., Petronini, P.G., Wheeler, K.P. and Borghetti, A.F.
Multicomponent analysis of amino acid transport System L in normal and virus-transformed fibroblasts (904) 29
Geering, K., see Zamofing, D. (904) 381
Glanville, N.T., Cook, H.W. and Spence, M.W.
Compartmentation of phosphorylated precursors of phospholipid biosynthesis in cultured neuroblastoma cells (904) 392
Goffeau, A., see Luu-The, V. (904) 251
Goldfine, H., Rosenthal, J.J.C. and Johnston, N.C.
Lipid shape as a determinant of lipid composition in *Clostridium butyricum.* The effects of incorporation of various fatty acids on the ratios of the major ether lipids (904) 283

Goldschleger, R., see Shani, M. (904) 13
Goñi, F.M., see Urbaneja, M.A. (904) 337
Goppelt-Strübe, M. and Resch, K.
Polyunsaturated fatty acids are enriched in the plasma membranes of mitogen-stimulated T-lymphocytes (904) 22
Gould, G.W., McWhirter, J.M., East, J.M. and Lee, A.G.
Uptake of Ca^{2+} mediated by the (Ca^{2+} + Mg^{2+})-ATPase in reconstituted vesicles (904) 36
Gould, G.W., McWhirter, J.M., East, J.M. and Lee, A.G.
A fast passive Ca^{2+} efflux mediated by the (Ca^{2+} + Mg^{2+})-ATPase in reconstituted vesicles (904) 45
Grant, K.I., see Smith, P.J. (904) 365
Griffith, C.J., see Rea, P.A. (904) 1
Gulik-Krzywicki, T., see Rivas, E. (904) 290

Hatton, J.D., Cox, G.F., Miller, A.L., Nichol, J.A. and Ellisman, M.H.
Identification of polypeptides associated with sarcolemmal vesicles enriched in orthogonal arrays (904) 373
Hatzav, P., see Agam, G. (904) 207
Hidaka, K., see Yoshimura, A. (904) 159
Hokin-Neaverson, M., see Lowndes, J.M. (904) 154
Horváth, L.I., see Páli, T. (904) 346

Imae, Y., see Matsukura, H. (904) 301
Itoh, S., see Kamo, N. (904) 179

Jarvis, S.M., see Kwong, F.Y.P. (904) 105
Johnson, M.L., see Ben Yashar, V. (904) 117
Johnston, N.C., see Goldfine, H. (904) 283

Kalra, V.K., see Farooqui, S.M. (904) 239
Kamo, N., Yoshimoto, M., Kobatake, Y. and Itoh, S.
Formation of blue membrane of bacteriorhodopsin by addition of tetrakis(4-fluorophenyl)boron, an hydrophobic anion (904) 179
